ABSTRAK

Penelitian ini bertujuan untuk menganalisis pengaruh *collaborative governance* terhadap efektivitas Program Percepatan Penurunan Stunting di Desa Pangke Barat, Kabupaten Karimun. Penelitian ini menggunakan pendekatan kuantitatif dengan jenis penelitian asosiatif kausal. Sampel penelitian berjumlah 48 responden dengan teknik accidental sampling dengan data dikumpulkan melalui kuesioner skala Likert dan dianalisis menggunakan IBM SPSS Statistics 25. Hasil penelitian menunjukkan bahwa *collaborative governance* dan efektivitas program percepatan penurunan *stunting* berada pada kategori sangat baik. Hasil pengujian menunjukkan *Collaborative governance* terbukti berpengaruh positif dan signifikan terhadap efektivitas Program Percepatan Penurunan Stunting. Variabel *collaborative governance* memberikan kontribusi sebesar 60,8% terhadap efektivitas program, sedangkan 39,2% dipengaruhi oleh faktor lain di luar penelitian. Temuan penelitian ini menunjukkan bahwa semakin baik penerapan *Collaborative Governance* melalui komunikasi, kepercayaan, komitmen, koordinasi, serta kapasitas kolaboratif, semakin tinggi efektivitas program percepatan penurunan stunting. Dengan demikian, penguatan kolaborasi antar pemangku kepentingan menjadi faktor penting dalam meningkatkan keberhasilan efektivitas Program Percepatan Penurunan Stunting di tingkat desa.

Kata Kunci : Collaborative Governance, Efektivitas Program, Percepatan Penurunan Stunting.

ABSTRACT

This study aims to analyze the effect of collaborative governance on the effectiveness of the Stunting Reduction Acceleration Program in Pangke Barat Village, Karimun Regency. This study employed a quantitative approach with a causal associative research design. The sample consisted of 48 respondents selected using the accidental sampling technique. Data were collected through a Likert-scale questionnaire and analyzed using IBM SPSS Statistics. The results showed that collaborative governance had a positive and significant effect on the effectiveness of the Stunting Reduction Acceleration Program. Collaborative governance contributed 60.8% to the effectiveness of the program, while the remaining 39.2% was influenced by other factors outside the scope of this study. These findings indicate that better implementation of collaborative governance through effective communication, trust, commitment, coordination, and collaborative capacity contributes to greater program effectiveness. Therefore, strengthening collaboration among stakeholders is an important factor in improving the effectiveness of the Stunting Reduction Acceleration Program in Pangke Barat Village.
