Abstrak

Penelitian ini bertujuan membahas dampak bantuan langsung tunai (BLT) terhadap masyarakat desa Resun Pesisir Kecamatan Lingga Utara Kabupaten Lingga. Penelitian ini dilatar belakangi oleh adanya wabah covid-19 yang membuat perekonomian masyarakat desa Resun Pesisir menurun, sehingga berdampak pada angka kemiskinan bertambah. Dengan adanya wabah covid-19 menyebabkan pemerintah memberikan bantuan kepada mereka masyarakat yang terdampak covid-19 berupa bantuan langsung tunai, dengan nominal Rp300.000/bulan. Untuk masyarakat yang berhak mendapatkan bantuan langsung tunai ini tentunya harus sesuai dengan kriteria yang berlaku. Bantuan langsung tunai ini merupakan bantuan yang diperoleh atau didapatkan dari dana desa dimana dana bansos BLT bertujuan membatasi dampak pandemik covid-19 yang dirasakan oleh masyarakat Desa Resun Pesisir. Metode penelitian yang digunakan ialah penelitian kualitatif. Informan penelitian berjumlah enam orang masyarakat yang mendapatkan bantuan langsung tunai. Teknik pengumpulan data pada penelitian ini menggunakan teknik wawancara, observasi, dan dokumentasi. Teknik analisis data menggunakan reduksi data, penyajian data dan pengambilan kesimpulan. Hasil penelitian ini menunjukkan dengan adanya bantuan langsung tunai (BLT) terhadap masyarakat Desa Resun Pesisir kecamatan Lingga Utara Kabupaten Lingga telah memberikan dampak kepada masyarakat, setidaknya dengan adanya bantuan ini telah memberikan suatu solusi dalam penanganan masyarakat yang sedang terdampak pandemi covid-19. Tentunya bantuan ini yang telah diberikan kepada masyarakat digunakan sebaik mungkin, digunakan untuk kebutuhan yang mendasar terlebih dahulu seperti kebutuhan pokok.
