**Abstrak**

Kontrak yang terjadi antara dengan pasien disebut transaksi terapeutik. Penelitian ini bertujuan mengetahui Implementasi perikatan berdasarkan hasil pada kontrak terapeutik dan apa saja kendala perikatan berdasarkan hasil pada kontrak terapeutik. Penelitian ini dilakukan di Puskesmas Desa Kelarik Kabupaten Natuna. Data yang dikumpulkan melalui wawancara. Data dianalisis dengan analisa hukum normatif empiris, selanjutnya dianalisis secara kualitatif yakni berupaya untuk menggambarkan dan menguraikan secara jelas tentang permasalahan yang penulis angkat. Penelitian kuantitatif dilakukan terhadap responden. Hasil penelitian menunjukkan bahwa perikatan berdasarkan hasil pada kontrak terapeutik di Puskesmas Desa Kelarik sudah terlaksana dengan baik hal itu dikarenakan, dimana Dokter Di Puskesmas Desa Kelarik Kabupaten Natuna telah mengerti dan paham dalam mencegah terjadinya kesalahan, kesengajaan, dan kelalaian dalam perjanjian terapeutik agar tidak terjadi kasus hukum baik sanksi hukum administrasi berupa pencabutan surat izin praktek, hukum perdata berupa pemberian ganti rugi. Pelaksanaan Perjanjian Terapeutik di masyarakat belum berjalan efektif. Hal ini dipengaruhi karena pengetahuan tentang pentingnya mengetahui perikatan berdasarkan hasil (*resultaat verbintenis recht*) menjadi kendala utama dalam kontrak terapeutik, kurangnya pemahaman pasien terhadap perjanjian Terapeutik tersebut.

***Abstract***

*The contract that is formed between patients is known as therapeutic transaction. The purpose of this study was to determine the implementation of treatment contract outcomes and what are the limitations of treatment contract outcome tasks. This research was conducted at Kelarik Village Health Center, Natuna Regency. Data were collected through interviews. Data were analyzed by normative, empirical and then qualitative analysis, that is, trying to clearly describe and explain the problems raised by the author. Quantitative research was conducted on respondents. The results of the study showed that participation on outcomes of treatment contracts at Gelarik Village Community Health Center was going well. Because the doctors at Kelarik Natuna Regency Village Health Center understand how to prevent mistakes, intentions and negligence in Treatment agreement to prevent a lawsuit from occurring Good law Administrative law penalties in the form of revocation of a professional license Civil law in the form of compensation Implementation of community treatment agreements is ineffective. This was influenced because knowledge of the importance of knowing outcome-based participation (resultaat verbinten is recht) was the main obstacle in the healing contract. Lack of patient understanding of treatment agreements.*
