Abstrak

Keberadaan komunitas pecinta motor Tanjungpinang berawal dari hoby anak remaja dibidang otomotif. Perilaku Komunitas Pecinta Motor yang dimaksud dengan penelitian ini yaitu adanya berbagai kegiatan yang dilakukan remaja yang termasuk dalam bentuk aksi kolektif yang dinilai positif oleh masyarakat. Dengan rumusan masalah bagaimana upaya Komunitas Pecinta Motor Remaja di Tanjungpinang untuk mendapatkan penilaian positif dari masyarakat?. Tujuan penelitian ini ingin mengetahui bagaimana perilaku komunitas pecinta motor remaja di Tanjungpinang. Teori Olson Mancur mengemukakan keterlambatan seseorang dalam aktivitas kolektif didorong kepentingan pribadi dan tingkat kepentingan dari sumber aksi. Metode penelitian menggunakan Jenis penelitian kualitatif dengan pendekatan deskriptif dan informan penelitian yaitu berjumlah tujuh orang dari perwakilan pecinta motor remaja Tanjungpinang. Analisis pengolahan data menggunakan teknik triangulasi yaitu pengecekan keabsahan data dari wawancara penelitian, dengan upaya komunitas pecinta motor agar mendapatkan penilaian positif masyarakat dengan melakukan aksi sosial, solidaritas keagamaan, diskusi melalui kopdar, dan Event Olahraga Road Race. Hasil temuan penelitian diperoleh dari perilaku remaja yang tergabung dalam komunitas pecinta motor Tanjungpinang yaitu mereka dapat belajar mengenal modifikasi (bengkel motor). Bentuk upaya yang dilakukan komunitas pecinta motor di Tanjungpinang antara lain mengadakan bakti sosial yaitu dapat memberikan nilai positif dengan gerakan gotong royong, berbagi sembako membantu bencana alam. Kegiatan keagamaan di bulan ramadhan berbagi takjil, mengunjungi panti asuhan dan mengikuti kegiatan besar islam, dan kegiatan sholat jamaah keliling disebut bikers subuhan. Kegiatan diskusi dari aksi kopdar bertujuan menjalin kebersamaan antar sesama komunitas dari kegiatan ini bertujuan untuk menambah pertemanan membahas kegiatan otomotif. Kegiatan Event Olahraga Road Race yaitu untuk mengukuh kekuatan antar sesama komunitas melalui ajang balapan motor secara resmi untuk menyalurkan bakat yang melahirkan atlit balap motor untuk bersaing di Event Nasional.

Abstract

The existence of the Tanjungpinang motorcycle lovers community began with the hobby of teenage children in the field of automotive. The behavior of the Motor Lovers Community referred to by this study is the existence of various activities carried out by teenagers that are included in the form of collective action that is considered positive by the community. With the formulation of the problem how do the efforts of the Youth Motor Lovers Community in Tanjungpinang to get a positive assessment from the community? The purpose of this research wants to know how the behavior of the teenage motorcycle lovers community in Tanjungpinang. Olson's theory of the Crush suggests that a person's delay in collective activity is driven by personal interests and the level of interest of the source of action. The research method uses a qualitative research type with descriptive and informant detection of research, which is seven people from representatives of motorcycle lovers of Tanjungpinang teenagers. Data processing analysis uses triangulation techniques that check the interpretation of data from research interviews, with the efforts of the motorbike community to get a positive assessment of the community by conducting social actions, religious solidarity, discussions through kopdar, and Road Race Sports Event. The results of the research findings obtained from the behavior of teenagers who are members of the Tanjungpinang motorcycle lovers community that they can learn to recognize modifications (motor workshop). The form of efforts made by the motorcycle lovers community in Tanjungpinang among others held social services that can provide positive value with the mutual cooperation movement, sharing food to help natural disasters. Religious activities in Ramadan share tacjil, visit orphanages and follow large Islamic activities, and the activities of traveling worshippers are called dawn bikers. The discussion of the Kopdar action aims to establish togetherness among fellow communities from this activity aims to increase friendships discussing automotive activities. Road Race Sports Event is to strengthen the strength of fellow communities through the official motorcycle racing event to channel the talent that gave birth to motorcycle racing athletes to compete in the National Event.
