ABSTRAK

Berdasarkan Undang-Undang No 6 Tahun 2014 Tentang Desa bertujuan untuk meningkatkan kesejahteraan masyarakat desa serta kualitas hidup manusia serta penanggulangan kemiskinan melalui pemenuhan kebutuhan dasar, pembangunan sarana dan prasana desa, pengembangan ekonomi lokal, serta pemanfaatan sumber daya alam secara berkelanjutan. Pembangunan desa meliputi tahap perencanaan, pelaksanaan, serta pengawasan. Penelitian ini menggunakan metode penelitian deskriptif kualitatif, guna mendapatkan gambaran sebenarnya yang ada di lapangan dengan teknik pengumpulan data serta wawancara mendalam terhadap para informan. Hasil Penelitian menunjukkan bahwa pemerintah Desa Sunggak dalam pengelolaan pembangunan sarana olahraga khususnya pada pembanguna lapangan sepak bola belum bisa optimal. Peneliti melihat dari sisi kapabilitas pemerintah desa tercatat belum bisa melakukan pembangunan lapangan sepak yang baik mulai dari perencanaan awal, pelaksanaan maupun hasil dari pembangunan tersebut. Pemerintah desa Sunggak belum cukup memiliki kapabilitas pengetahuan dan keterampilan, kapabilitas sistem teknis, kapabilitas sistem manajerial serta kapabilitas nilai dan norma. dan faktor pendukung dan penghambat dalam pembangunan sarana olahraga di Desa Sunggak yaitu sumber daya manusia, sumber daya alam, dan anggaran

ABSTRACT

Based on Law No. 4 of 2014 concerning Villages, the aim is to improve the welfare of village communities and the quality of human life and overcome poverty through fulfilling basic needs, developing village facilities and infrastructure, developing the local economy, and using natural resources in a sustainable manner. Village development includes planning, implementation and supervision stages. This research uses qualitative descriptive research methods, in order to get a true picture of what exists in the field using data collection techniques and in-depth interviews with informants. The research results show that the Sunggak Village government in managing the development of sports facilities infrastructure is quite good. This can be seen from planning, implementation, administration, accountability reporting, everything has been done correctly by the Sunggak Village government and has also been well received by the community. Research shows that village government capabilities are very much needed in developing village infrastructure, especially sports facilities. The Sunggak village government already has knowledge and skills capabilities, technical system capacity, managerial system capacity as well as value and norm capacity. And supporting and inhibiting factors in the development of sports facilities in Sunggak Village are human resources, natural resources and budget.
